

GREENSTUF® INSULATION

QUICK FACTS

Fire safety

GreenStuf polyester insulation has been independently tested and assessed to the relevant fire standards for New Zealand Building Code (NZBC) compliance, including downlights.

Durable

GreenStuf will not settle or reduce its performance over time and is backed by a 50 year product durability warranty.

High performance

GreenStuf insulation is not affected by moisture, is naturally resistant to insect and vermin attack, and meets relevant requirements of the NZBC.

Safe to touch

GreenStuf is 100% polyester (like a duvet) so there's no nasty itching or scratching. It's completely safe and does not require protective clothing when handling or installing.

Safer indoor air quality

GreenStuf does not contain any added chemicals such as formaldehyde-based binders or fibres that can be breathed into your lungs.

Recycled content and recyclable

GreenStuf is manufactured using a minimum of 50% previously recycled polyester fibre (from PET plastic) and is reusable and recyclable at end of life.

Local and proud

GreenStuf is proudly made in New Zealand for Kiwis.

Breathe easier

GreenStuf has been independently endorsed by Asthma New Zealand and accepted into their Breathe Easy programme - as a product considered safer for those New Zealanders living with Asthma.

Quality

GreenStuf is made under tightly-controlled manufacturing processes. Autex Industries has a full-scale product testing laboratory at its manufacturing facilities to allow a team of experts to check that GreenStuf is consistently of the highest quality.
